👥 PROJECTS

Vocabulary Learning through Reading App 2026 – present

Based on the given vocabulary list, use the LLM to generate passages with words to be learned. Japanese and English are supported. Android App, locally hosted (Working on it)

Oral Exam with LLM 2026 – present

Use LLM to help teachers set oral exams(Working on it): <https://aioalexam.me/>

Learning Recommendation Agent 2026 – present

Use LLM to help students navigate and control their online study in a large-scale online learning activity. (Working on it)

Educational Tools before the Age of Vibe Coding 2023 – 2025

Used PowerPoint to design slides for education. Used C# to develop a program recording student's recitation status. Used DeepSeek to develop a website recording recitation status and groups' scores.

♡ PERSONAL INTERESTS

- Knowledge of C, C++, C#, Python, Java, Keras, PyTorch, and LaTeX
- Competency of compelling Claude Code / Codex / Copilot to work
- Experience of constructing a website from scratch, and hosting on a server and obtaining a domain name
- Enjoys Swimming, Running, Reading, etc.
- Hosting a bilibili account: <https://space.bilibili.com/441769510>

📖 MISCELLANEOUS

- Participated in recording of [Graduation MV for ShanghaiTech University, 2023](#)
- TOEFL: 110, CET-4: 610, CET-6: 602
- Obtaining my High School Math Teacher's certificate (Pending Exam Result)
- Currently in FEAL and [MAIC](#)
- 1 Recording accepted by Rapida Overwatch Moments (OW1, and now I have forgotten the link)
- Highest Achievement in some Games: Honkai 3 Abyss: Red Locus, Overwatch: Platinum 4 (Open Queue), Genshin: N5 in Stygian Onslaught
- First Prize of China High School Biology Olympiad, 2017(B171857)
